

Instructions for use HUMIN PLUS for Indoor Plants

Use of HUMIN PLUS for the treatment of indoor plants.

- It is recommended to water flowers with HUMIN PLUS solution at a rate of 1:500 (2 ml per 1 liter of water) once every two weeks. Watering is advisable to alternate with spraying in a concentration of 1:1000 solution (1 ml per 1 litre of water).
- Orchids (Orchidaceae or Yatryshnikovye, Lat. Orchidáceae) are recommended to be treated as follows: Once every two weeks put the pot of orchids in water, with a solution concentration of 1:2000 HUMIN PLUS (1 ml per 2 liters of water). This treatment is advisable to alternate with spraying of the plants with a solution of HUMIN PLUS of 1:500000 concentration (solution concentration of 1:500 - 0.5 ml per 1 liter of water, and then 1 ml of this solution added to 1 litre of water).
- For cut flowers it is recommended to put in a concentration of 1:2000 solution of HUMIN PLUS (1 ml per 2 litres of water), which prolongs the life of flowers in a vase.
